

Welcome to the heritage museum

**Come to the house on
crutches were you
will find
Friendly staff.
Lots of old artefacts**

The lobby

The lobby is the first room you enter in the museum and has fire men uniforms. The fire stations were close together so they could communicate with each other in an emergency.

The Town room

In the town room there was a dentist drill and shoes on a table. In a cabinet opposite the shoes there is a cabinet with miniature purses and jewellery in.

Agricultural Room

In the Agricultural Room there is:

← A man trap- to trap people if they were on someone else's land.

■ Old saws and axes – used for cutting down trees.

The Parlour

Most of the toys in the parlour were made of wood and would probably have been made at home. There was a model of a grandmother reading her book.

Conclusion

I really enjoyed visiting the museum you will to so come and visit the heritage museum.
